

Customized near-infrared and visible light free-space optical isolators :

Customized near-infrared and visible light free-space optical isolators

780, 795, 850nm and various wavelengths of near-infrared and visible light free-space optical isolators can be customized.

Product Features:

low insertion loss

high isolation

Typical application:

Visible light, near-infrared laser anti-reflection

Product Specifications:

model	OCI-795-3-T1-S-1	OCI-795-3-T1-D-1	OCI-850-3-T1-S-1	OCI-850-3-T1-D-1
type	Single-stage	double stage	Single-stage	double stage
center wavelength	795nm	795nm	850nm	850nm
Clear hole	Φ2.8	Φ2.8	Φ2.8	Φ2.8
Isolation (dB)	>=30	>=55	>=30	>=55
Insertion loss(dB)	<=0.5	<=0.75	<=0.5	<=0.75
Dimensions (mm)	Φ29*41.5	Φ29*64.5	Φ29*41.5	Φ29*64.5
